Winter Camp News

“Traditionally Unconventional”

“On Guard
Since 1986”

The Winter Camp XLI service crew poses in front of the final building to be burned during the 2017 service project: the pole building at The Pines. While an attempt by the ranger staff to move and preserve the building using a forklift and a backhoe was valiantly made, the mission was cut short when the backhoe, having already removed a door, punctured the building's floor.

Three buildings were completely demolished and burned; two others were partially taken down (intentionally) and burned during this most recent chapter in Winter Camp's 39 years of official and unofficial service to council camps.
